

Hello, thanks alot for responding to my call to join the bird holding project!

It's really very simple; just print the pdf on A4 or A3 size in black and white, cut it out leaving around 5mm of white around the edges and start taking pictures of people holding it. Preferable in recognisable places for your city or country, like monuments, subwaystations etc. Feel free to get as many people involved as possible, the more the better!

Thanks already!

When there's enough picture's, I'll try to arrange an expo or the printing of a small book.

example Portugal

example Kenya
